

Project Executable Files

Date	29 September 2026
Team ID	SWTID-2026-1876
Project Name	AI BlogNest API
Maximum Marks	3 Marks

Project Executable Files

This section provides the executable and deployable project details for the AI BlogNest API. The project is a modular Node.js and Express.js backend using MongoDB, Mongoose, JWT authentication, Google Gemini AI integration, and Thunder Client for REST API testing.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / N/A)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	Yes
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	N/A
8	Dockerfile / Containerization config (if applicable)	N/A
9	Test files and test results	No
10	Demo video or walkthrough (if required)	Yes

Note: The supplied documentation confirms the source structure, README, package files, MongoDB/Mongoose models, .env configuration and demo video. A hosted URL, Docker configuration, APK, and dedicated automated test files are not listed in the supplied documentation.

Step 2: File / Folder Structure

The AI BlogNest API is organized into controllers, middleware, models, routes, services, and application/server entry points.

```
AI BlogNest API
■
■ ■ ■ ■ src
■ ■ ■ ■ controllers
■ ■ ■ ■ ■ blogController.js
■ ■ ■ ■ middleware
■ ■ ■ ■ ■ authMiddleware.js
■ ■ ■ ■ ■ errorMiddleware.js
■ ■ ■ ■ models
■ ■ ■ ■ ■ Blog.js
■ ■ ■ ■ ■ User.js
■ ■ ■ ■ routes
■ ■ ■ ■ ■ aiRoutes.js
■ ■ ■ ■ ■ authRoutes.js
■ ■ ■ ■ ■ blogRoutes.js
■ ■ ■ ■ services
■ ■ ■ ■ app.js
■ ■ ■ ■ server.js
■ ■ ■ ■ .env
■ ■ ■ ■ .gitignore
■ ■ ■ ■ package.json
■ ■ ■ ■ package-lock.json
■ ■ ■ ■ README.md
■ ■ ■ ■ Thunder Client API Collection
■ ■ ■ ■ Thunder Client Environment
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not provided in the project documentation.
Login Credentials (Demo)	No demo credentials are documented. Authentication uses registration/login with JWT.
Platform / Hosting Provider	Local Node.js / Express.js development environment; no cloud provider is documented.
Repository Link	GitHub is identified for source-code management; a specific repository URL is not provided.
Demo Video Link	https://drive.google.com/file/d/1MhCqIg10Q5YqpqMNdZpT8p_pwEBKDYQM/view?usp=drive

Step 4: Run Instructions

Use the following steps to run and test the AI BlogNest API locally.

Pre-requisites	Node.js, npm, Visual Studio Code, MongoDB access, and the required Gemini AI configuration.
Step 1	Install Node.js and open the AI BlogNest API project in Visual Studio Code.
Step 2	Install the required project dependencies using npm.
Step 3	Configure the .env file with server port, MongoDB connection string, JWT secret, and Gemini AI configuration.
Step 4	Configure MongoDB so the backend application can connect to the database.
Step 5	Start the backend server using the configured npm development command.
Step 6	Test the REST APIs using Thunder Client after the server starts successfully.
Step 7	Verify authentication, blog management, AI blog generation, AI summarization, and blog retrieval responses.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	No specific known issue is listed in the supplied project documentation.	Not documented; verify during execution.
2	No deployed/hosted application URL is documented.	Run the backend locally using the documented setup steps.
3	Dedicated automated test files/results are not listed in the documented folder structure.	REST APIs are verified using Thunder Client.

Project Execution Summary

The project execution starts from the Express.js backend. The application initializes, starts on the configured port, connects to MongoDB, exposes API routes, and supports authentication, blog management, and Gemini AI features. API responses are verified using Thunder Client.
